Welcome to

Southland
Golf & Country Club

Southland opened in 1985 and is approximately 3 miles South of historic Stone Mountain, Georgia. The course offers a setting of pines, hardwoods and rolling terrain with rock outcroppings. A 40 acre lake comes into play on three holes.

Golfers at Southland will enjoy the panoramic view of Stone Mountain from the first and final three holes. The course features Champion Bermuda Greens, bermuda fairways and bermuda tees. Speedy play is encouraged. Southland also offers a putting area, practice range, complete pro shop, a lounge and an extremely nice "banquet building" which is ideal for social outings. Corporate outings are welcome at Southland.

USING THIS BOOK

Before you start your next round of golf, take a moment to look through this yardage book. Pay attention to the hazards, playing tips, and basic yardage information to help yourself get a feel for the course.

When you go to play each hole review the playing tip for helpful hints. Look for landmarks like trees, bunkers, or curves in the fairway to align your shots with and reference the yardage measurements as a tool to help you decide which clubs will be best to use. As you play the hole, you can make notes on the pages of this book for yourself.

Next time you come to play our course, you will have a personalized guide to playing your best!

STONE MOUNTAIN

THE 1ST HOLE

Par 5/561 yards You need a long drive here on this long, difficult par 5. It also needs to be straight. You will also have a long second shot into this hidden but small green. Don't go long or you'll lose your ball on your approach. Avoid the right also, it's big time trouble. Welcome to Southland. A bogey is not a bad start, trust me.

1
 PAR 5
 HCP 5

THE 2ND HOLE

Par 4/381 yards The real challenge on this hole is the green. A decent tee shot over the pond should give you a short iron in. Middle to middle left on this fairway is the best spot. A tee shot to the right may stay on the hill and have a tree issue blocking out the approach. Notice the pin and stay below it. Any downhill putt on this green is almost begging for a three putt.

THE 3RD HOLE

Par 3/211 yards Depending on the tees you are playing, this hole is either tough, very tough, or I'm picking up tough. This straight down the hill par 3 gives you no real room to miss, and the pin locations can vary your club selection by two or three clubs. Even if you hit this elusive green, it's still quite a challenge to putt. Good luck!

THE 4TH HOLE

Par 4/373 yards A short but fun par 4. A tee shot to the left of the bunkers is all you need. If conditions are dry, most players should not hit driver. 3 wood or even long iron will do you fine. Though this green is pretty well protected, do not get too careful and end up short. There is a small but pesky creek in front that is famous for swallowing golf balls.

THE 5TH HOLE

Par 4/351 yards The uphill drive is a little deceptive, because most people will still have a short iron into this green, and the green lies well below the fairway. There is a bunker short of this green and trouble behind it so come up and check the pin position before hitting your approach shot.

5
PAR 4
HCP 15

THE 6TH HOLE

Par 5/506 yards. A fun par 5 that requires some thinking more than distance. Best not to hit driver off the tee, and take the huge slab of granite in the middle of the fairway out of play. A mid to long iron will get you in good approach position, be aware there is a ridge in the fairway about 40 yards out that could give you some difficulty lies so either hit short or long of that. The green is two tiered, do your best to hit to the correct one. It's a pretty big tier

6
PAR 5
HCP 3

THE 7TH HOLE

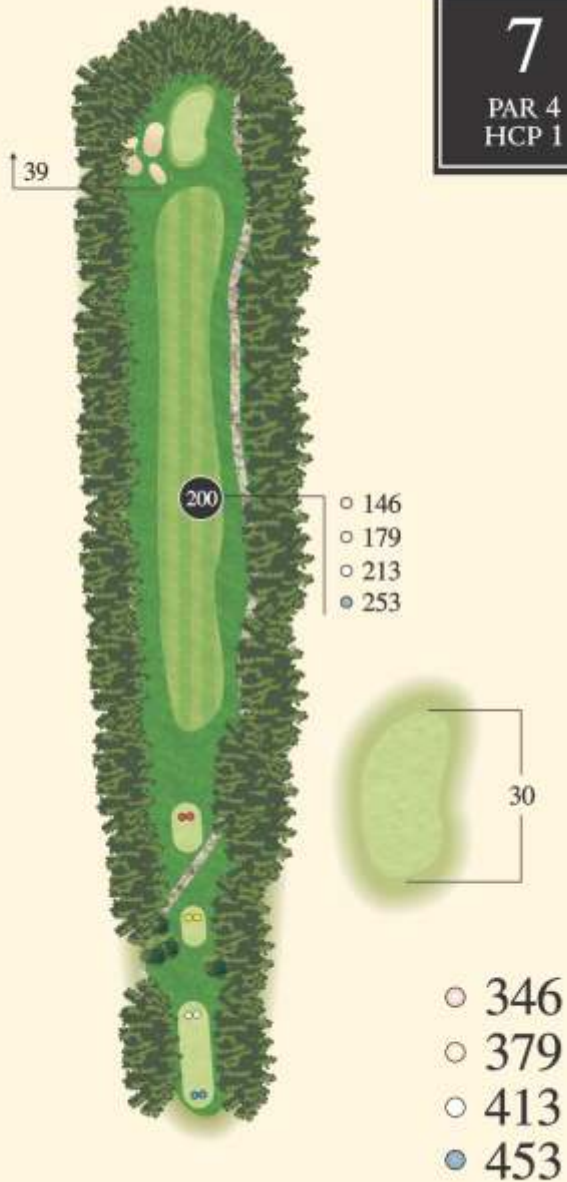

Par 4/453 yards Most feel this is the toughest hole on the course. I disagree (see hole #3) but it's a close 2nd. A long par 4 that simply dares you to reach the green in two (a bunker on the left of it) and then get the ball in the cup in two strokes (not easy on this tough sloping green). Sounds easy enough, right? Good luck.

7
PAR 4
HCP 1

THE 8TH HOLE

Par 4/325 yards A long iron off the tee is best for most golfers, unless you can boom it off the tee straight and then cut off 50 yards by aiming way left. It is hard to stop the ball on the fairway of this severe dogleg left hole, but if you do, you'll have a mid iron into this green. A safe tee shot down the hill, a short iron short of the creek and another short iron to the hole should make par quite attainable.

THE 9TH HOLE

Par 3/162 yards A very straight forward, relatively simple par 3. The green slopes a bit left to right so keep that in mind to avoid downhill putts. Missing long or right will leave you a difficult chip.

9

PAR 3
HCP 17

Southland
Golf & Country Club

THE 10TH HOLE

Par 4/385 yards The theme of this hole: Up the hill. Your drive needs to go straight and fairly long. The rock outcroppings that dot this fairway should not come into play, but if they do they are considered in play and so woe is anyone trapped behind one. This green has a severe slope in it so be sure you stay on the correct tier.

THE 11TH HOLE

Par 4/349 yards This short dogleg right par 4 is best tackled conservatively. A fairway wood to the top of the hill is all you need to have a finesse wedge into this green. Middle to middle left is best for your tee shot but the rocks on the right side are (currently) considered ground under repair.

THE 12TH HOLE

Par 3/176 yards A great par 3. A pond in front adds the scenery, but it's the creek that runs in front and to the right of the green that supplies the danger. Pay close attention to pin location, it's a deep green, and the wind likes to swirl here.

- 139
- 176

THE 13TH HOLE

Par 5/498 yards This par 5 is a bombs away type hole that really gives you a chance to score. A good drive to the right side (even off the hill perhaps?) will put you in ideal shape to go for it in two if you wish. If not, three decent shots should still get you in good birdie shape. For those who want to attack this pin, watch for the bunker on the left side of the green.

notes:

THE 14TH HOLE

Par 4/381 yards A par 4 that looks tougher than it really is. No need to get overly greedy here on this tee shot. A decent drive sent out to the right side of this fairway will give you a short iron into the green. Don't be too intimidated by the trees in front of you, the fairway is more open than you think.

 COMPANY

THE 15TH HOLE

Par 4/411 yards This par 4 is similar to the last hole in that the tee shot looks more intimidating than it really is. A decently struck tee shot will clear the pond fine. The hole doglegs right, and though the temptation is to hit it right to make the hole shorter, left provides a better angle and it will be a pretty short iron in anyways. The green is quite deep and slopes hard back to front so keep your shot below the hole.

THE 16TH HOLE

Par 4/417 yards This simple par 4 has one rule off the tee. Keep your ball away from the right. The hole runs slightly left, but o.b. stakes are right off the right edge of the fairway and the ball likes to run right when hit near there. Otherwise, a simple mid to short iron approach to this large green.

THE 17TH HOLE

Par 3/191 yards Wow, this spectacular par 3 is beautifully framed by Stone Mountain behind the hole. Well, actually, a lake is directly behind this hole so be careful not to use too much club on this long par 3. The hole plays slightly downhill but you still need a solid shot to get to the green. The green is very wide so getting on the green is still a tough par.

17

PAR 3
HCP 18

THE 18TH HOLE

Par 5/512 yards The signature hole of this course and one of the most fun par 5's around. Your drive needs to be middle to left on this fairway, the huge lake all the way down the right serves as quite the intimidator. Your second shot if you are laying up needs to be well back of the green because water does cut in almost all the way across the front of the green. Beware, however, that the further left you go on your second shot, often the tougher the angle in on your approach. Finally, the green actually slopes towards the water so your final shot into the green, though short, is still no picnic. Some may choose to chance the lake and inlet to go for the green in two. The green is large enough to hold, but you better have all the conditions working in your favor. A little skill with the 3 wood might help too.

OFFICIAL REVIEW

Built in 1985, Southland opened as a private 9-hole club prior to becoming available in recent years for public access. Designed by renowned golf course architect, William Byrd (who also designed Atlanta Country Club). Southland offers dramatic elevation changes, natural granite outcroppings, and a large 36 acre lake; which make the layout unique, memorable and challenging. With the addition of current holes 4-12 in 1989, the course was redesigned and became the 18-hole layout you see today. New Champions Bermuda greens were added in 2011 and consistently run close to 10 on the Stimpmeter in the summer and 11-12 in the winter-they are very fast and undulating-so stay below the hole!

The course is open 7-days a week, 364 days per year-closing only on Christmas day. Tee times begin at 7:30am daily and may be made by calling the golf shop at 770-469-2717, six days in advance for non-members, and seven days in advance for members. The course is located in a residential community. The course is available to host golf outings charity events, fund raisers, and .also have three banquet rooms available for parties, weddings, and business meetings.

When you arrive, have a seat in the clubhouse or proshop. We don't allow outside food or drinks. Please stock up on snacks, beverages, apparel and supplies.

The practice facility consists of a putting green and driving range that are open until dark daily.

OFFICIAL REVIEW CONT.

About the course:

The course measures 6643 yards from the back/Blue tees; however, it plays much longer due to the severe elevation changes on many holes. Most players choose to play from the Member/White tees, which play between 6039 and 6300 yards depending on the season. World Famous, Stone Mountain is visible on most holes in the distance and is a good barometer for the “break” of your putts-if in doubt, most putts break away from the mountain.

Hole #18, a 512 yard par five, is our signature hole, and one of the best finishing holes in Atlanta. This hole will reward the accurate player who can negotiate a drive onto the narrow fairway, lined with OB on the left and a lake the entire length of the hole on the right side; and will dare the longer hitter to attempt a lengthy second shot to an inlet green, tucked over the corner of the Lake and surrounded by numerous bunkers.

History of Stone Mountain:

Stone Mountain is a quartz monzonite dome and the site of Stone Mountain Park. At its summit, the elevation is 1,686 feet (514 m), 825 feet (251 m) above the surrounding area, and is 5 miles (8.0 km) in circumference at its base. Stone Mountain was formed during the formation of the Blue Ridge Mountains, part of the Appalachian Mountains. It formed as a result of the upwelling of magma from within the Earth's crust.

This magma solidified to form granite within the crust five to ten miles below the surface. Stone Mountain is well-known not only for its geology, but also for the enormous bas-relief on its north face, the largest bas-relief in the world. The carving depicts three figures of the Confederate States of America: Stonewall Jackson, Robert E. Lee, and Jefferson Davis.
